

EXECUTIVE DIRECTOR'S REPORT

OCTOBER 20, 2008

EMResource (formerly EMSsystem) Evaluation Meeting

The meeting to evaluate EMResource was held in late August. A multidisciplinary group of people met and suggested some revisions. Those revisions have been delayed due to the activities surrounding hurricanes Gustav and Ike. The changes should be implemented soon. The committee agreed to meet after a few months to evaluate the revisions.

Contracts

It is a requirement of our contracts with the state that the Board be advised of the signing of any contracts. Since our last meeting we have signed contracts for the Administrative and Programmatic grants for Fiscal Year 2009.

Trauma Plan

Each RAC is required to review and revise its Trauma Plan on an annual basis. The SETTRAC Trauma Plan has not been reviewed and revised for several years. In the coming months the review and revision of the SETTRAC Trauma Plan will be prioritized and begun. Some parts of the plan will be distributed to the appropriate committees, some will require various committees to work together and others may require that work groups be formed to work on remaining parts of the Trauma Plan.

SETTRAC Web Site

Friday we debuted a new version of the SETTRAC web site. We would like your feedback. Any suggestions you have that could make our web-site better would be appreciated.

A couple of the committees have a web-page. Committee chairs please review your page and offer suggestions for improvement. If your committee does not have a web-page please let us know if you want one.

Much thanks to Marnie for her work on this. Please direct all feedback to her.
